

CASH360™

The culmination of two years of sustained research and development, G4S's CASH360™ total cash management solution is a revolutionary security technology that delivers tangible benefits to our clients. CASH360™ optimizes every process from point of sale through to settlement in your bank account. CASH360™ reduces operating costs through improved accuracy, security and productivity, without negatively affecting customer service.

Paying by cash is still the most popular way for consumers to buy goods, wherever you go in the country. By integrating CASH360™ with all elements of the cash cycle, our solution ensures that all key activities are managed by a single partner who knows and understands cash.

With CASH360™, retailers can expect tangible, bottom-line benefits.

Operations

Cash management is a complex operational task, with substantial risks associated with errors, oversights and process failings. G4S's customized solutions reduce costs, mitigate risk and increase efficiency for our clients. Benefits of CASH360™ include:

- Reduced costs & on-site cash holdings
- Streamlined processes
- Improved overall cash flow
- Greater accuracy (balance)

Management

From a financial and overall business perspective, it is vital that a cash management system provide transparency and accountability. G4S leads the security industry in terms of reporting and metrics for our clients. With CASH360™, our clients receive:

- Detailed audit trail
- Full online reporting
- Greater visibility (cash metrics)

Employees

The internal and external risks associated with employees handling cash are substantial. G4S understands the importance of protecting employees, as well as protecting your cash. CASH360™ provides:

- Reduced health & safety risk
- Greater customer focus
- Improved accountability
- Decreased internal loss
